

THE STYLE IS ON THE WALL.

WE LOVE WOOD. A BUSHEL AND E-PECK.

Synergy Wood is the leading expert in prefinished wood for ceilings and walls. Our durable premium products bring exceptional beauty and unsurpassed quality to any room - inside or out.

- Made in America
- **☑** 100% wood
- Mand-wiped, prefinished
- ☑ Deep, consistent color
- ▼ Tongue and groove
- ☑ End-matched
- Easy to install, less waste
- Quality and durable product

SYNERGY WOOD

Pecky is a fungus that attacks the heartwood of mature Cypress trees, hollowing out the tree's center. When the lumber is milled, natural grooves and divots deliver a very rustic aesthetic.

Our **E-Peck**® process duplicates the pecky appearance in not only our Cypress, but also our Ponderosa Pine or Southern Yellow Pine boards. This proprietary process and design uses hundreds of different patterns, which our CNC machining centers use to groove distressing marks into the board surface, duplicating the natural and rare pecky of older Cypress trees.

E-Peck® planks are tongue and groove, end matched and hand finished delivering a premium and durable finish that is easier to install with less waste.

- ☑ End-matched
- Easy to install, less waste
- Quality and durable product

Our **Synergy** line is the premium choice for discriminating homeowners and builders, and is available in three species: Cypress, Ponderosa Pine and Southern Yellow Pine.

Cypress is a durable wood and produces a naturally occurring preservative called cypressene making it more resistant to insects, rot, decay, and other damaging elements. Offered in #2 and Select Grades.

Ponderosa Pine is a soft-textured wood with typically straight, close and uniform grain and an extraordinarily popular and versatile softwood lumber. Offered in #2 Grade.

Strength, durability, economy and character: Southern Yellow Pine lumber is a competent choice for any building application. Offered in #2 and C-Grade.

SYNERGY WOOD

Brushed Wood is a finishing technique which uses a wire brush to add texture and character to our boards. Enhancing the variations between the softwood and heartwood of each plank Brushed Wood appears weathered and compliments the natural wood grain variations.

Brushed Wood is a versatile product which integrates well into both rustic and contemporary designs.

Brushed Wood is available on both Ponderosa Pine and Cypress with 6 different colors from which to choose. All planks are tongue and groove, end matched and hand finished delivering a premium and durable finish that is easier to install with less waste.

SYNERGY WOOD

RECLAIM YOUR SPACE.

Synergy Wood is the leading expert in prefinished wood for ceilings and walls. Our durable premium products bring exceptional beauty and unsurpassed quality to any room - inside or out.

- Made in America
- **☑** 100% wood
- Mand-wiped, prefinished
- ▼ Tongue and groove
- ☑ End-matched
- Easy to install, less waste
- Quality and durable product

Rustic Barnwood recreates the appearance of reclaimed wood – a trend that is very popular in today's interior design. Using Cypress, each plank is rough sawn, wirebrushed and hand finished to give a very rustic, authentic appearance. It's a stronger more durable product without the guesswork and waste of reassembling a wall from dismantled structures.

Our planks are produced in five widths, each width having a slight variation in thickness, adding depth and texture for a stunning finished product.

Rustic Barnwood planks are tongue and groove, end matched and hand finished delivering a premium and durable finish that is easier to install with less waste.

- ☑ End-matched
- Easy to install, less waste
- Quality and durable product

Part of our rustic series, Farmhouse Select uses Ponderosa Pine to bring country charm and old farmhouse feel to any environment by recreating the appearance of reclaimed wood. Using our unique manufacturing process, Farmhouse Select planks are rough sawn and hand finished delivering a chic and rustic application suitable for any home or commercial interior.

Ponderosa Pine is incredibly versatile and much more durable than aged/reclaimed lumber. It also eliminates the guesswork and waste of reassembling a wall from dismantled structures.

Farmhouse Select planks are tongue and groove, end matched and hand finished delivering a premium and durable finish that is easier to install with less waste.

THE REINVENTION OF SHIPLAP.

Synergy Wood is the leading expert in prefinished wood for ceilings and walls. Our durable premium products bring exceptional beauty and unsurpassed quality to any room - inside or out.

- Made in America
- **☑** 100% wood
- Mand-wiped, prefinished
- Deep, consistent color
- ▼ Tongue and groove
- ☑ End-matched
- Easy to install, less waste
- Quality and durable product

Seaside fuses rustic with contemporary by adding texture and character to traditional shiplap, delivering coastal comfort to interior design. A 100% wood product, Seaside is produced from Ponderosa Pine and recommended for interior wall and ceiling applications.

Despite its nautical name, **Seaside** goes beyond complimenting coastal interiors. It's subtle and neutral tones are appropriate for any livable space that seeks the warmth and beauty that accompany natural wood products. All planks are rough-sawn and painted, scraped and glazed by hand.

Each box of **Seaside** covers 16.5 square feet of wall or ceiling and is available in a 5" face.
